

RECORD OBSERVATIONS OF PLANTS AND ANIMALS ON iNATURALIST.ORG

Take photos and turn those observations into scientific data!

If you have a smart phone: Start by downloading the iNaturalist App from your App store.
(No smart phone? You can register and use the program online at iNaturalist.org when back at a computer)

Everyone should experience iNaturalist from a computer!

Make an observation

Put what you know, maybe it is a "plant" or leave blank. It will guess an ID for you to pick, too!

Add location details, habits, assoc., etc. (optional)

Edit location

Obscure coordinates

Add the observations to a Project
